

LED under cabinet lighting Fixture

Model#:
EZUC121830WH02

User Manual

Congratulations on your EZ LIGHTING products purchase

PLEASE READ THESE INSTRUCTIONS BEFORE INSTALLATION

Remove the fixture and mounting package from the box and make sure that no parts are missing by referencing the illustration on the installation instructions.

In case of missing parts, please email customer@ez-lighting.com and we will send them out right away.

ASSEMBLY AND INSTALLATION

1. Install the clips on a straight line, with 10" (25 cm) between each clip.
2. Connect the power supply connector to the first fixture with DC plug. Push fixture in brackets until a "click" is heard.
3. Plug others fixtures by using the extension cord included.

LED under cabinet lighting Fixture

EZ Lighting proudly presents our LED under cabinet lights with hand wave sensor that can be used in a variety of spaces to create wonderful accents of stylish light just about anywhere. Our high-quality LED's provide professional-quality lighting effects easy to use by a non-professional. These LED under cabinet lights are simple to install and you will enjoy for years with minimal power requirements. The integrated hand wave sensor also makes this product easy to use without the need for a traditional on/off switch. Great for use anywhere in the home or business including under cabinet, counter lighting in the kitchen, accent lighting in home theater, hallway, and vanity installations, or even simply for party decoration.
